

DEEKSHITHA P

Bengaluru, India | +91 7676331700 | deekshithashivu@gmail.com | LinkedIn

Summary

Robotics and Artificial Intelligence undergraduate with hands-on experience as a Software Development Intern at Diginow Solutions (Kenya), building responsive web applications and collaborating within remote, agile teams. Skilled in full-stack development, REST APIs, PostgreSQL, Git/GitHub, and core software engineering fundamentals, with growing exposure to AI-integrated tools.

Education

Bangalore Institute of Technology

Bachelor of Engineering – Robotics & Artificial Intelligence

Bengaluru, India

2023 – 2027

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL

Frontend: HTML5, CSS3, React.js, Tailwind CSS

Databases & Backend: PostgreSQL, Supabase, REST APIs

Tools: Git, GitHub, Streamlit, GPS/IoT Integration, Groq API

Experience

Software Development Intern

Diginow Solutions (Remote) | Kenya

Present

- Developing responsive, user-centric web applications using React.js, JavaScript, and Tailwind CSS.
- Contributed to the redesign and development of a client public website as part of the internship engagement, with a focus on responsive layout and improved user experience.
- Collaborating with remote development teams using Git and GitHub to manage code, track changes, and streamline workflow.
- Building reusable, maintainable UI components while following modern frontend development best practices.
- Debugging, testing, and optimizing web applications to improve performance and responsiveness.
- Participating in feature development, code reviews, and iterative improvements within an Agile environment.

Projects

Rentora

Jan 2026 – Mar 2026

Frontend Development | Supabase (PostgreSQL) | UI Design

- Built a web-based rental platform enabling users to browse, list, and manage rental products through a responsive, user-friendly interface.
- Integrated Supabase (PostgreSQL) for structured data storage and real-time updates.

Resume Analyzer AI

2026

Python | Streamlit | Groq API (Llama 3.3 70B) | pdfplumber | Plotly

- Built an AI-powered resume analyzer that parses PDF/DOCX resumes and generates role-specific ATS scores, keyword-gap analysis, and structured feedback using JSON-mode LLM prompting.
- Designed role-aware prompting to tailor analysis and recommendations across different target job roles.

Early Cardiac Abnormality Detection Wearable Watch

Ongoing

IoT Development | Sensor Integration | System Design

- Designing an IoT-based wearable system integrating ECG and motion sensors for real-time cardiac monitoring.
- Architecting a predictive alert pipeline to flag cardiac abnormalities and trigger emergency notifications.

Internshala Clone

Jun 2026

React Development | Tailwind CSS | Frontend Development

- Developed a responsive internship portal inspired by Internshala, focusing on modern UI design and seamless user experience.

Certifications

- Artificial Intelligence and Machine Learning – Infosys Springboard (2025)
- Machine Learning A–Z using Python (2025)
- Web Development – Elevance Skills (2026)

Leadership & Achievements

Creative Committee Head | Robotics Club, Bangalore Institute of Technology

Led the planning and execution of branding, promotional campaigns, and creative initiatives for technical events while collaborating with cross-functional student teams.
